INDEPENDENT AUDITORS' REPORT

Board of Commissioners
North Lafourche Conservation, Levee and Drainage District
Raceland, Louisiana

We have audited the accompanying basic financial statements of the North Lafourche Conservation, Levee and Drainage District, a component unit of the State of Louisiana, as of and for the year ended December 31, 2006, as listed in the table of contents. These financial statements are the responsibility of management of the North Lafourche Conservation, Levee and Drainage District. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the North Lafourche Conservation, Levee and Drainage District as of December 31, 2006, and the changes in its financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued a report dated March 8, 2007, on our consideration of the North Lafourche Conservation, Levee and Drainage District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

The Management's Discussion and Analysis and the budgetary information on pages 3 through 7 and 20, respectively, are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was performed for the purpose of forming an opinion on the basic financial statements of the North Lafourche Conservation, Levee and Drainage District taken as a whole. The accompanying supplemental schedules and the Division of Administration reporting package listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The financial information for the year ended December 31, 2005, which is included for comparative purposes was taken from the financial report for that year in which we expressed an unqualified opinion dated March 6, 2006, on the basic financial statements of the North Lafourche Conservation, Levee and Drainage District.

Management Discussion and Analysis

Basic Financial Statements

Required Supplementary Information
(Other than MD&A)

These financial statements consist of three sections - Management's Discussion and Analysis (this section), the basic financial statements (including the notes to the financial statements), and required supplementary information.

Basic Financial Statements

This annual report consist of a series of financial statements. The Statement of Net Assets and the Statement of Activities (on pages 8 and 9) provide information about the activities of the North Lafourche Conservation, Levee and Drainage District as a whole and present a longer-term view of the District's finances. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The Statement of Net Assets and the Statement of Activities report the District's net assets and changes in them. You can think of the District's net assets, the difference between assets and liabilities, as one way to measure the District's financial health, or financial position. Over time, increases or decreases in the District's net assets are one indicator of whether its financial health is improving or deteriorating.

Fund financial statements start on page 10. All of the District's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's activities as well as what remains for future spending.

IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED DECEMBER 31, 2006

Net Change in Fund Balances-Total Governmental Funds (Exhibit E) \$ 753,746

The change in Net Assets reported for governmental activities in the statement of activities is different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation (\$160,555) exceed capital outlays (\$0) in the current period. (160,555)

Some expense reported in the statement of activities, such as compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. 0

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2006

The North Lafourche Conservation, Levee and Drainage District was created by the Louisiana State Legislature under the provisions of Louisiana Revised Statute 38:291. The Levee District primarily provides flood protection for those areas contained in the District. The Board of Commissioners administers the operations and responsibilities of the Levee District in accordance with the provisions of Louisiana statute. The nine members of the Board of Commissioners which governs the District are appointed by the governor of the State of Louisiana.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Accounting

In April of 1984, the Financial Accounting Foundation established the Governmental Accounting Standards Board (GASB) to promulgate generally accepted accounting principles and reporting standards with respect to activities and transactions of state and local governmental entities. The GASB has issued a Codification of Governmental Accounting and Financial Reporting Standards (GASB Codification). This Codification and subsequent GASB pronouncements are recognized as generally accepted accounting principles for state and local governments. The accompanying financial statements have been prepared in accordance with such principles.

The accompanying financial statements of the North Lafourche Conservation, Levee and Drainage District present information only as to the transactions of the programs of the North Lafourche Conservation, Levee and Drainage District as authorized by Louisiana statutes and administrative regulations.

Basis of accounting refers to when revenues and expenses are recognized and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The accounts of the North Lafourche Conservation, Levee and Drainage District are maintained in accordance with applicable statutory provisions and the regulations of the Division of Administration-Office of Statewide Reporting and Accounting Policy as Follows:

Revenue Recognition

Revenues are recognized using the full accrual basis of accounting; therefore, revenues are recognized in the accounting period in which they are earned and become measurable.

Expense Recognition

Expenses are recognized on the accrual basis; therefore, expenses, including salaries, are recognized in the period incurred, if measurable.

B. Budgetary Accounting

Formal budgetary accounting is employed as a management control. The District prepares and adopts a budget prior to July 1 of each year for its general fund in accordance with Louisiana Revised Statutes. The operating budget is prepared based on prior year's revenues and expenditures and the estimated increase therein for the current year, using the full accrual basis of accounting. The District amends its budget when projected revenues are expected to be less than budgeted revenues by five percent or more and/or projected expenditures are expected to be more than budgeted amounts by five percent or more. All budget appropriations lapse at year end.

State appropriations made for the operations of the various programs of the North Lafourche Conservation, Levee and Drainage District are annual lapsing appropriations.

STATE OF LOUISIANA
NORTH LAFOURCHE CONSERVATION, LEVEE AND DRAINAGE DISTRICT
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2006

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Budgetary Accounting (Continued)

1. The budgetary process is an annual appropriation valid for one year.
2. The agency is prohibited by statute from over expending the categories established in the budget.
3. Budget revisions are granted by the Joint Legislative Budget Committee, a committee of the Louisiana Legislature. Interim emergency appropriations may be granted by the Interim Emergency Board.
4. The budgetary information included in the financial statements include the original appropriation plus subsequent amendments as follows:

Original Approved Budget	\$	0
Amendments		<u>0</u>
Final Approved Budget	\$	<u><u>0</u></u>

C. Cash and Cash Equivalents

For the purpose of the Statement of Cash Flows and consistent with GASB Statement 9, the District defines cash and cash equivalents as follows:

Cash-includes not only currency on hand but also demand deposits with banks or other financial institutions and other kinds of accounts that have the general characteristics of demand deposits in that the customer may deposit additional funds at any time and also effectively may withdraw funds at any time without prior notice or penalty.

Cash equivalents -includes all short term, highly liquid investments that are readily convertible to known amounts of cash and are so near their maturity that they present insignificant risk of changes in value because of interest rates. Generally, only investments which, at the day of purchase, have a maturity date no longer than 90 days qualify under this definition.

D. Receivables

All receivables are reported at their gross value and, where applicable, are reduced by the estimated portion that is expected to be uncollectible.

E. Bad Debts

Uncollectible accounts receivable are recognized as bad debts through the establishment of an allowance account at the time information becomes available which would indicate the uncollectibility of the particular receivable. At December 31, 2006, \$0 were considered to be uncollectible.

F. Capital Assets

Capital assets are carried at historical costs. Depreciation of all exhaustible capital assets used by the District are charged as an expense against operations in the Statement of Activities. Capital assets net of accumulated depreciation are reported on the Statement of Net Assets. Depreciation is computed using the straight line method over the estimated useful life of the assets, generally 10 to 20 years for building improvements and 3 to 10 years for moveable property. Expenditures for maintenance, repairs and minor renewals are charged to earnings as incurred. Major expenditures for renewals and betterments are capitalized.

The District has no full time employees; Therefore, no liability for compensated absences has been recorded in the accompanying financial statements.

H. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS

A. Deposits with Financial Institutions

For reporting purposes, deposits with financial institutions including savings, demand deposits, time deposits, and certificates of deposit. Under state law the North Lafourche Conservation, Levee and Drainage District may deposit funds within a fiscal agent bank selected and designated by the Interim Emergency Board. Further the District may invest in time certificates of deposit of state banks organized under the laws of Louisiana, national banks having their principal office in the state of Louisiana, in savings accounts or shares of savings and loan associations and savings banks and in share accounts and share certificate accounts of federally or state chartered credit unions.

Deposits in bank accounts are stated at cost, which approximates market. Under state law, these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These pledged securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank in the form of safekeeping receipts held by the State Treasurer. The deposits at December 31, 2006 were secured as follows:

NOTE 6 RETIREMENT SYSTEM

All employees of the North Lafourche Conservation, Levee and Drainage District are covered by the Social Security System. Employees contribute 6.2% of their total salary to the System, while the District contributes a like amount. For the year ended December 31, 2006, total contributions to the System were \$2,118 of which the District contributed \$1,059 and employees contributed \$1,059. Total payroll for the year ended December 31, 2006 was \$17,075 and total payroll covered by the System was \$17,075. Any future deficits in this System will be financed by the United States Government. The District has no further liability to the System for the ended December 31, 2006.

NOTE 7 LEASE OBLIGATIONS

The North Lafourche Conservation, Levee and Drainage District rents office space under an annual operating lease arrangement that is renewed each December for the following year. The rent is \$300 per month and the minimum payments due for the term of the lease is \$3,600. This amount is included in operating services for 2006.

The North Lafourche Conservation, Levee and Drainage District was not obligated under any capital leases agreements at December 31, 2006.

NOTE 8 LITIGATION

The North Lafourche Conservation, Levee and Drainage District was involved in several lawsuits as of the close of business on December 31, 2006. Although the outcome of these lawsuits is not determinable at this stage of the proceedings, the potential losses not covered by applicable insurance are not considered to be significant in relation to the District's overall financial condition.

NOTE 9 RISK MANAGEMENT

The North Lafourche Conservation, Levee and Drainage District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the District.

NOTE 10 CHANGE IN BOUNDARY LIMITS

Effective January 1, 2007, the boundary limits of the North Lafourche Conservation, Levee and Drainage District were re-defined (by House Bill No. 47 of the First Extraordinary Session of 2006) to embrace "that portion of the Parish of Lafourche lying north of the northern bank of the Intracoastal Canal" to be within the limits of the Levee District.

REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Commissioners
North Lafourche Conservation, Levee and Drainage District
Raceland, Louisiana

We have audited the basic financial statements of the North Lafourche Conservation, Levee and Drainage District, a component unit of the State of Louisiana, as of and for the year ended December 31, 2006, and have issued our report thereon dated March 8, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the North Lafourche Conservation, Levee and Drainage District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instance of noncompliance that are required to be reported under Government Auditing Standards.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the North Lafourche Conservation, Levee and Drainage District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatement in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operations that we consider to be material weaknesses.

This report is intended solely for the information and use of the North Lafourche Conservation, Levee and Drainage District and the Legislative Auditor of the State of Louisiana and is not intended to be, and should not be, used by anyone other than the specified parties. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

STATE OF LOUISIANA
NORTH LAFOURCHE CONSERVATION, LEVEE AND DRAINAGE DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2006

The North Lafourche Conservation, Levee and Drainage District was created by the Louisiana State Legislature under the provisions of Louisiana Revised Statute 38:291. The Levee District primarily provides flood protection for those areas contained in the District. The Board of Commissioners administers the operations and responsibilities of the Levee District in accordance with the provisions of Louisiana statute. The nine members of the Board of Commissioners which governs the District are appointed by the governor of the State of Louisiana.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Accounting

In April of 1984, the Financial Accounting Foundation established the Governmental Accounting Standards Board (GASB) to promulgate generally accepted accounting principles and reporting standards with respect to activities and transactions of state and local governmental entities. The GASB has issued a Codification of Governmental Accounting and Financial Reporting Standards (GASB Codification). This Codification and subsequent GASB pronouncements are recognized as generally accepted accounting principles for state and local governments. The accompanying financial statements have been prepared in accordance with such principles.

The accompanying financial statements of the North Lafourche Conservation, Levee and Drainage District present information only as to the transactions of the programs of the North Lafourche Conservation, Levee and Drainage District as authorized by Louisiana statutes and administrative regulations.

Basis of accounting refers to when revenues and expenses are recognized and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The accounts of the North Lafourche Conservation, Levee and Drainage District are maintained in accordance with applicable statutory provisions and the regulations of the Division of Administration-Office of Statewide Reporting and Accounting Policy as follows:

Revenue Recognition

Revenues are recognized using the full accrual basis of accounting; therefore, revenues are recognized in the accounting period in which they are earned and become measurable.

Expense Recognition

Expenses are recognized on the accrual basis; therefore, expenses, including salaries, are recognized in the period incurred, if measurable.

B. Budgetary Accounting

Formal budgetary accounting is employed as a management control. The District prepares and adopts a budget prior to July 1 of each year for its general fund in accordance with Louisiana Revised Statutes. The operating budget is prepared based on prior year's revenues and expenditures and the estimated increase therein for the current year, using the full accrual basis of accounting. The District amends its budget when projected revenues are expected to be less than budgeted revenues by five percent or more and/or projected expenditures are expected to be more than budgeted amounts by five percent or more. All budget appropriations lapse at year end.

State appropriations made for the operations of the various programs of the North Lafourche Conservation, Levee and Drainage District are annual lapsing appropriations.

STATE OF LOUISIANA
NORTH LAFOURCHE CONSERVATION, LEVEE AND DRAINAGE DISTRICT
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2006

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Budgetary Accounting (Continued)

1. The budgetary process is an annual appropriation valid for one year.
2. The agency is prohibited by statute from over expending the categories established in the budget.
3. Budget revisions are granted by the Joint Legislative Budget Committee, a committee of the Louisiana Legislature. Interim emergency appropriations may be granted by the Interim Emergency Board.
4. The budgetary information included in the financial statements include the original appropriation plus subsequent amendments as follows:

Original Approved Budget	\$	0
Amendments		<u>0</u>
Final Approved Budget	\$	<u><u>0</u></u>

C. Cash and Cash Equivalents

For the purpose of the Statement of Cash Flows and consistent with GASB Statement 9, the District defines cash and cash equivalents as follows:

Cash-includes not only currency on hand but also demand deposits with banks or other financial institutions and other kinds of accounts that have the general characteristics of demand deposits in that the customer may deposit additional funds at any time and also effectively may withdraw funds at any time without prior notice or penalty.

Cash equivalents -includes all short term, highly liquid investments that are readily convertible to known amounts of cash and are so near their maturity that they present insignificant risk of changes in value because of interest rates. Generally, only investments which, at the day of purchase, have a maturity date no longer than 90 days qualify under this definition.

D. Receivables

All receivables are reported at their gross value and, where applicable, are reduced by the estimated portion that is expected to be uncollectible.

E. Bad Debts

Uncollectible accounts receivable are recognized as bad debts through the establishment of an allowance account at the time information becomes available which would indicate the uncollectibility of the particular receivable. At December 31, 2006, \$0 were considered to be uncollectible.

F. Capital Assets

Capital assets are carried at historical costs. Depreciation of all exhaustible capital assets used by the District are charged as an expense against operations in the Statement of Activities. Capital assets net of accumulated depreciation are reported on the Statement of Net Assets. Depreciation is computed using the straight line method over the estimated useful life of the assets, generally 10 to 20 years for building improvements and 3 to 10 years for moveable property. Expenditures for maintenance, repairs and minor renewals are charged to earnings as incurred. Major expenditures for renewals and betterments are capitalized.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Compensated Absences

The District has no full time employees; Therefore, no liability for compensated absences has been recorded in the accompanying financial statements.

H. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS

A. Deposits with Financial Institutions

For reporting purposes, deposits with financial institutions including savings, demand deposits, time deposits, and certificates of deposit. Under state law the North Lafourche Conservation, Levee and Drainage District may deposit funds within a fiscal agent bank selected and designated by the Interim Emergency Board. Further the District may invest in time certificates of deposit of state banks organized under the laws of Louisiana, national banks having their principal office in the state of Louisiana, in savings accounts or shares of savings and loan associations and savings banks and in share accounts and share certificate accounts of federally or state chartered credit unions.

Deposits in bank accounts are stated at cost, which approximates market. Under state law, these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These pledged securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank in the form of safekeeping receipts held by the State Treasurer. The deposits at December 31, 2006 were secured as follows:

NOTE 8 LITIGATION

The North Lafourche Conservation, Levee and Drainage District was involved in several lawsuits as of the close of business on December 31, 2006. Although the outcome of these lawsuits is not determinable at this stage of the proceedings, the potential losses not covered by applicable insurance are not considered to be significant in relation to the District's overall financial condition.

NOTE 9 RISK MANAGEMENT

The North Lafourche Conservation, Levee and Drainage District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the District.

NOTE 10 CHANGE IN BOUNDARY LIMITS

Effective January 1, 2007, the boundary limits of the North Lafourche Conservation, Levee and Drainage District were re-defined (by House Bill No. 47 of the First Extraordinary Session of 2006) to embrace "that portion of the Parish of Lafourche lying north of the northern bank of the Intracoastal Canal" to be within the limits of the Levee District.
