INDEPENDENT AUDITORS' REPORT

Board of Commissioners
Natchitoches Levee and Drainage District
Natchitoches, Louisiana

We have audited the accompanying basic financial statements of the Natchitoches Levee and Drainage District, a component unit of the State of Louisiana, as of and for the year ended June 30, 2003, as listed in the table of contents. These basic financial statements are the responsibility of management of the Natchitoches Levee and Drainage District. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the Natchitoches Levee and Drainage District as of June 30, 2003, and the changes in its financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued a report dated August 21, 2003, on our consideration of the Natchitoches Levee and Drainage District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

The Management's Discussion and Analysis and the budgetary information on pages 5 through 9 and 24, respectively, are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was made for the purpose of forming an opinion on the basic financial statements of the Natchitoches Levee and Drainage District taken as a whole. The accompanying supplemental schedules and the Division of Administration reporting package listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Page #2

The financial information for the year ended June 30, 2002, which is included for comparative purposes was taken from the financial report for that year in which Leroy J. Chustz and Beverly A. Ryall expressed an unqualified opinion dated August 13, 2002, on the basic financial statements of the Natchitoches Levee and Drainage District.

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

These financial statements consist of three sections - Management's Discussion and Analysis (this section), the basic financial statements (including the notes to the financial statements), and required supplementary information.

Basic Financial Statements

This annual report consist of a series of financial statements. The Statement of Net Assets and the Statement of Activities (on pages 10 and 11) provide information about the activities of the Natchitoches Levee and Drainage District as a whole and present a longer-term view of the District's finances. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The Statement of Net Assets and the Statement of Activities report the District's net assets and changes in them. You can think of the District's net assets, the difference between assets and liabilities, as one way to measure the District's financial health, or financial position. Over time, increases or decreases in the District's net assets are one indicator of whether its financial health is improving or deteriorating.

Fund financial statements start on page 12. All of the District's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's activities as well as what remains for future spending.

VARIATIONS BETWEEN ORIGINAL AND FINAL BUDGETS

Actual revenues were \$90,013 more than budgeted amounts due to net property tax collections and state revenue sharing being more than expected.

Actual expenditures were \$3,595 less than budgeted amounts due to capital outlay expenditures being less than expected.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The Natchitoches Levee and Drainage District's elected and appointed officials considered the following factors and indicators when setting next year's budget, rates, and fees. These factors and indicators include:

- 1) Ad valorem taxes
- 2) Interest income
- 3) Projects under consideration
- 4) Intergovernmental revenues (state and local grants)

The Natchitoches Levee and Drainage District does not expect any significant changes in next year's results as compared to the current year.

Net Change in Fund Balances-Total Governmental Funds (Exhibit E)	\$ 91,008
The change in Net Assets reported for governmental activities in the statement of activities is different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation (\$28,746) exceeds capital outlays (\$0) in the current period.	(28,746)
Some expense reported in the statement of activities, such as compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.	<u>3,657</u>

STATE OF LOUISIANA
NATCHITOCHES LEVEE AND DRAINAGE DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2003

The Natchitoches Levee and Drainage District was created by the Louisiana State Legislature under the provisions of the Louisiana Revised Statute 38:291(H). The Levee District includes most of Natchitoches Parish. The Levee District primarily provides flood protection for those areas contained in the District. The Board of Commissioners administers the operations and responsibilities of the Levee District in accordance with the provisions of Louisiana statute. The eight members of the Board of Commissioners which governs the District are appointed by the governor of the State of Louisiana.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Accounting

In April of 1984, the Financial Accounting Foundation established the Governmental Accounting Standards Board (GASB) to promulgate generally accepted accounting principles and reporting standards with respect to activities and transactions of state and local governmental entities. The GASB has issued a Codification of Governmental Accounting and Financial Reporting Standards (GASB Codification). This Codification and subsequent GASB pronouncements are recognized as generally accepted accounting principles for state and local governments. The accompanying financial statements have been prepared in accordance with such principles.

The accompanying financial statements of the Natchitoches Levee and Drainage District present information only as to the transactions of the programs of the Natchitoches Levee and Drainage District as authorized by Louisiana statutes and administrative regulations.

Basis of accounting refers to when revenues and expenses are recognized and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The accounts of the Natchitoches Levee and Drainage District are maintained in accordance with applicable statutory provisions and the regulations of the Division of Administration-Office of Statewide Reporting and Accounting Policy as Follows:

Revenue Recognition

Revenues are recognized using the full accrual basis of accounting; therefore, revenues are recognized in the accounting period in which they are earned and become measurable.

Expense Recognition

Expenses are recognized on the accrual basis; therefore, expenses, including salaries, are recognized in the period incurred, if measurable.

B. Budgetary Accounting

Formal budgetary accounting is employed as a management control. The District prepares and adopts a budget prior to July 1 of each year for its general fund in accordance with Louisiana Revised Statutes. The operating budget is prepared based on prior year's revenues and expenditures and the estimated increase therein for the current year, using the full accrual basis of accounting. The District amends its budget when projected revenues are expected to be less than budgeted revenues by five percent or more and/or projected expenditures are expected to be more than budgeted amounts by five percent or more. All budget appropriations lapse at year end.

NATCHITOCHEs LEVEE AND DRAINAGE DISTRICT
NOTES TO FINANCIAL STATEMENTS (CONTINUED)

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Budgetary Accounting (Continued)

State appropriations made for the operations of the various programs of the Natchitoches Levee and Drainage District are annual lapsing appropriations.

1. The budgetary process is an annual appropriation valid for one year.
2. The agency is prohibited by statute from over expending the categories established in the budget.
3. Budget revisions are granted by the Joint Legislative Budget Committee, a committee of the Louisiana Legislature. Interim emergency appropriations may be granted by the Interim Emergency Board.
4. The budgetary information included in the financial statements include the original appropriation plus subsequent amendments as follows:

Original Approved Budget	\$ 0
Amendments	0
Final Approved Budget	<u>\$ 0</u>

C. Cash and Cash Equivalents

For the purpose of the Statement of Cash Flows and consistent with GASB Statement 9, the District defines cash and cash equivalents as follows:

Cash - includes not only currency on hand but also demand deposits with banks or other financial institutions and other kinds of accounts that have the general characteristics of demand deposits in that the customer may deposit additional funds at any time and also effectively may withdraw funds at any time without prior notice or penalty.

Cash equivalents - includes all short term, highly liquid investments that are readily convertible to known amounts of cash and are so near their maturity that they present insignificant risk of changes in value because of interest rates. Generally, only investments which, at the day of purchase, have a maturity date no longer than three months qualify under this definition.

D. Receivables

All receivables are reported at their gross value and, where applicable, are reduced by the estimated portion that is expected to be uncollectible.

E. Bad Debts

Uncollectible accounts receivable are recognized as bad debts through the establishment of an allowance account at the time information becomes available which would indicate the uncollectibility of the particular receivable. At June 30, 2003, \$0 were considered to be uncollectible.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F. Capital Assets

Capital assets are carried at historical costs. Depreciation of all exhaustible capital assets used by the District are charged as an expense against operations in the Statement of Activities. Capital assets net of accumulated depreciation are reported on the Statement of Net Assets. Depreciation is computed using the straight line method over the estimated useful life of the assets, generally 10 to 40 years for buildings and building improvements and 5 to 10 years for moveable property. Expenditures for maintenance, repairs and minor renewals are charged to earnings as incurred. Major expenditures for renewals and betterments are capitalized.

G. Compensated Absences

District employees, both classified and unclassified, earn annual and sick leave at various rates depending on the number of years in service. The amount of annual and sick leave that may be accumulated by each employee is unlimited. Upon termination, an employee is compensated for up to 300 hours of unused annual leave at the employee's hourly rate of pay at the time of termination. Upon retirement, the number of hours of unused sick leave is computed and considered in computing the years of service for retirement benefit purposes.

H. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS

A. Deposits with Financial Institutions

For reporting purposes, deposits with financial institutions including savings, demand deposits, time deposits, and certificates of deposit. Under state law the Natchitoches Levee and Drainage District may deposit funds within a fiscal agent bank selected and designated by the Interim Emergency Board. Further the District may invest in time certificates of deposit of state banks organized under the laws of Louisiana, national banks having their principal office in the state of Louisiana, in savings accounts or shares of savings and loan associations and savings banks and in share accounts and share certificate accounts of federally or state chartered credit unions.

Deposits in bank accounts are stated at cost, which approximates market. Under state law, these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These pledged securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank in the form of safekeeping receipts held by the State Treasurer. The deposits at June 30, 2003 were secured as follows:

B. Investments

The Natchitoches Levee and Drainage District maintains investment accounts as authorized by the Louisiana Revised Statutes. Under state law, the District may invest in obligations of the U. S. Treasury and U. S. Agencies, or certificates of deposit. Investments are carried at fair market value as of the balance sheet date.

Investments can be classified according to the level of risk to the entity. Investments made by the Natchitoches Levee and Drainage District as of June 30, 2003 are summarized below by the category of risk.

- Category 1 Insured or registered in the entity's name, or security held by the entity or its agent in the entity's name.
- Category 2 Uninsured or registered with securities held by the counterparty's trust department or agent in the entity's name.
- Category 3 Unsecured and unregistered with securities held by the counterparty, or by its trust department or agent but not in the entity's name.

NOTE 7 RETIREMENT SYSTEM

Substantially all employees of the Natchitoches Levee and Drainage District are members of the Louisiana State Employees' Retirement System (System), a cost-sharing, multiple-employer, defined benefit pension plan. The System is a statewide public employee retirement system (PERS) for the benefits of state employees, which is administered and controlled by a separate board of trustees. All full time employees of the District are eligible to participate in the System. Benefits vest with 10 years of service. At retirement age, employees are entitled to annual benefits equal to \$300 plus 2.5% of their highest consecutive 36 months' average salary multiplied by their years of credited service.

Vested employees are entitled to a retirement benefit, payable monthly for life at a) any age with 30 years of service, b) age 55 with 25 years of service, or c) age 60 with 10 years of service. In addition, vested employees have the option of reduced benefits at any age with 20 years of service. The System also provides death and disability benefits. Benefits are established or amended by state statute. The System issues an annual publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to the State Employees Retirement System, Post Office Box 44213, Baton Rouge, Louisiana 70804-4213, or by calling (225) 922-0608.

Members are required by state statute to contribute 7.5 percent of their annual covered salary and the Natchitoches Levee and Drainage District is required to contribute at an actuarially determined rate. The current employer rate is 14.1 percent of annual covered payroll. The contribution requirements of plan members and the office are established and may be amended by state statute. As provided by state statute, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The District's contribution to the System for the year ending June 30, 2003 was \$8,792, equal to the required contribution for the year.

NOTE 8 POST RETIREMENT HEALTH CARE AND LIFE INSURANCE BENEFITS

The Natchitoches Levee and Drainage District currently provides certain continuing healthcare and life insurance benefits for its retired employees. Substantially all of the District's employees become eligible for these benefits if they reach normal retirement age while working for the District. The District pays half of the premium cost for its retirees and all of the premium cost for its active employees. These benefits are provided through a self-insurance fund which is reinsured by an insurance company. The District recognizes the cost of providing these benefits as an expense when the monthly premiums are paid, which totaled \$21,388 for the year ended June 30, 2003. The cost of providing these benefits to retirees totaled \$6,245 for the year ended June 30, 2003. As of June 30, 2003, there were 3 active employees and 1 retiree participating in the plan.

NOTE 9 LEASE OBLIGATIONS

The Natchitoches Levee and Drainage District was not obligated under any capital or operating lease commitments at June 30, 2003.

NOTE 10 RISK MANAGEMENT

The Natchitoches Levee and Drainage District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the District.

NOTE 11 LITIGATION

There was no outstanding litigation against the Natchitoches Levee and Drainage District at June 30, 2003.

REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Commissioners
Natchitoches Levee and Drainage District
Natchitoches, Louisiana

We have audited the basic financial statements of the Natchitoches Levee and Drainage District, a component unit of the State of Louisiana, as of and for the year ended June 30, 2003, and have issued our report thereon dated August 21, 2003. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the Natchitoches Levee and Drainage District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under Government Auditing Standards.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Natchitoches Levee and Drainage District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatement in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operations that we consider to be material weaknesses.

This report is intended solely for the information and use of the Natchitoches Levee and Drainage District and the Legislative Auditor of the State of Louisiana and is not intended to be, and should not be, used by anyone other than the specified parties.

STATE OF LOUISIANA
NATCHITOCHEES LEVEE AND DRAINAGE DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2003

The Natchitoches Levee and Drainage District was created by the Louisiana State Legislature under the provisions of the Louisiana Revised Statute 38:291(H). The Levee District includes most of Natchitoches Parish. The Levee District primarily provides flood protection for those areas contained in the District. The Board of Commissioners administers the operations and responsibilities of the Levee District in accordance with the provisions of Louisiana statute. The eight members of the Board of Commissioners which governs the District are appointed by the governor of the State of Louisiana.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Accounting

In April of 1984, the Financial Accounting Foundation established the Governmental Accounting Standards Board (GASB) to promulgate generally accepted accounting principles and reporting standards with respect to activities and transactions of state and local governmental entities. The GASB has issued a Codification of Governmental Accounting and Financial Reporting Standards (GASB Codification). This Codification and subsequent GASB pronouncements are recognized as generally accepted accounting principles for state and local governments. The accompanying financial statements have been prepared in accordance with such principles.

The accompanying financial statements of the Natchitoches Levee and Drainage District present information only as to the transactions of the programs of the Natchitoches Levee and Drainage District as authorized by Louisiana statutes and administrative regulations.

Basis of accounting refers to when revenues and expenses are recognized and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The accounts of the Natchitoches Levee and Drainage District are maintained in accordance with applicable statutory provisions and the regulations of the Division of Administration-Office of Statewide Reporting and Accounting Policy as Follows:

Revenue Recognition

Revenues are recognized using the full accrual basis of accounting; therefore, revenues are recognized in the accounting period in which they are earned and become measurable.

Expense Recognition

Expenses are recognized on the accrual basis; therefore, expenses, including salaries, are recognized in the period incurred, if measurable.

B. Budgetary Accounting

Formal budgetary accounting is employed as a management control. The District prepares and adopts a budget prior to July 1 of each year for its general fund in accordance with Louisiana Revised Statutes. The operating budget is prepared based on prior year's revenues and expenditures and the estimated increase therein for the current year, using the full accrual basis of accounting. The District amends its budget when projected revenues are expected to be less than budgeted revenues by five percent or more and/or projected expenditures are expected to be more than budgeted amounts by five percent or more. All budget appropriations lapse at year end.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Budgetary Accounting (Continued)

State appropriations made for the operations of the various programs of the Natchitoches Levee and Drainage District are annual lapsing appropriations.

1. The budgetary process is an annual appropriation valid for one year.
2. The agency is prohibited by statute from over expending the categories established in the budget.
3. Budget revisions are granted by the Joint Legislative Budget Committee, a committee of the Louisiana Legislature. Interim emergency appropriations may be granted by the Interim Emergency Board.
4. The budgetary information included in the financial statements include the original appropriation plus subsequent amendments as follows:

Original Approved Budget	\$ 0
Amendments	<u> 0</u>
Final Approved Budget	<u><u> 0</u></u>

C. Cash and Cash Equivalents

For the purpose of the Statement of Cash Flows and consistent with GASB Statement 9, the District defines cash and cash equivalents as follows:

Cash - includes not only currency on hand but also demand deposits with banks or other financial institutions and other kinds of accounts that have the general characteristics of demand deposits in that the customer may deposit additional funds at any time and also effectively may withdraw funds at any time without prior notice or penalty.

Cash equivalents - includes all short term, highly liquid investments that are readily convertible to known amounts of cash and are so near their maturity that they present insignificant risk of changes in value because of interest rates. Generally, only investments which, at the day of purchase, have a maturity date no longer than three months qualify under this definition.

D. Receivables

All receivables are reported at their gross value and, where applicable, are reduced by the estimated portion that is expected to be uncollectible.

E. Bad Debts

Uncollectible accounts receivable are recognized as bad debts through the establishment of an allowance account at the time information becomes available which would indicate the uncollectibility of the particular receivable. At June 30, 2003, \$0 were considered to be uncollectible.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F. Capital Assets

Capital assets are carried at historical costs. Depreciation of all exhaustible capital assets used by the District are charged as an expense against operations in the Statement of Activities. Capital assets net of accumulated depreciation are reported on the Statement of Net Assets. Depreciation is computed using the straight line method over the estimated useful life of the assets, generally 10 to 40 years for buildings and building improvements and 5 to 10 years for moveable property. Expenditures for maintenance, repairs and minor renewals are charged to earnings as incurred. Major expenditures for renewals and betterments are capitalized.

G. Compensated Absences

District employees, both classified and unclassified, earn annual and sick leave at various rates depending on the number of years in service. The amount of annual and sick leave that may be accumulated by each employee is unlimited. Upon termination, an employee is compensated for up to 300 hours of unused annual leave at the employee's hourly rate of pay at the time of termination. Upon retirement, the number of hours of unused sick leave is computed and considered in computing the years of service for retirement benefit purposes.

H. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS

A. Deposits with Financial Institutions

For reporting purposes, deposits with financial institutions including savings, demand deposits, time deposits, and certificates of deposit. Under state law the Natchitoches Levee and Drainage District may deposit funds within a fiscal agent bank selected and designated by the Interim Emergency Board. Further the District may invest in time certificates of deposit of state banks organized under the laws of Louisiana, national banks having their principal office in the state of Louisiana, in savings accounts or shares of savings and loan associations and savings banks and in share accounts and share certificate accounts of federally or state chartered credit unions.

Deposits in bank accounts are stated at cost, which approximates market. Under state law, these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These pledged securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank in the form of safekeeping receipts held by the State Treasurer. The deposits at June 30, 2003 were secured as follows:

NOTE 7 RETIREMENT SYSTEM

Substantially all employees of the Natchitoches Levee and Drainage District are members of the Louisiana State Employees' Retirement System (System), a cost-sharing, multiple-employer, defined benefit pension plan. The System is a statewide public employee retirement system (PERS) for the benefits of state employees, which is administered and controlled by a separate board of trustees. All full time employees of the District are eligible to participate in the System. Benefits vest with 10 years of service. At retirement age, employees are entitled to annual benefits equal to \$300 plus 2.5% of their highest consecutive 36 months' average salary multiplied by their years of credited service.

Vested employees are entitled to a retirement benefit, payable monthly for life at a) any age with 30 years of service, b) age 55 with 25 years of service, or c) age 60 with 10 years of service. In addition, vested employees have the option of reduced benefits at any age with 20 years of service. The System also provides death and disability benefits. Benefits are established or amended by state statute. The System issues an annual publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to the State Employees Retirement System, Post Office Box 44213, Baton Rouge, Louisiana 70804-4213, or by calling (225) 922-0608.

Members are required by state statute to contribute 7.5 percent of their annual covered salary and the Natchitoches Levee and Drainage District is required to contribute at an actuarially determined rate. The current employer rate is 14.1 percent of annual covered payroll. The contribution requirements of plan members and the office are established and may be amended by state statute. As provided by state statute, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The District's contribution to the System for the year ending June 30, 2003 was \$8,792, equal to the required contribution for the year.

NOTE 8 POST RETIREMENT HEALTH CARE AND LIFE INSURANCE BENEFITS

The Natchitoches Levee and Drainage District currently provides certain continuing healthcare and life insurance benefits for its retired employees. Substantially all of the District's employees become eligible for these benefits if they reach normal retirement age while working for the District. The District pays half of the premium cost for its retirees and all of the premium cost for its active employees. These benefits are provided through a self-insurance fund which is reinsured by an insurance company. The District recognizes the cost of providing these benefits as an expense when the monthly premiums are paid, which totaled \$21,388 for the year ended June 30, 2003. The cost of providing these benefits to retirees totaled \$6,245 for the year ended June 30, 2003. As of June 30, 2003, there were 3 active employees and 1 retiree participating in the plan.

NOTE 9 LEASE OBLIGATIONS

The Natchitoches Levee and Drainage District was not obligated under any capital or operating lease commitments at June 30, 2003.

NOTE 10 RISK MANAGEMENT

The Natchitoches Levee and Drainage District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the District.

NOTE 11 LITIGATION

There was no outstanding litigation against the Natchitoches Levee and Drainage District at June 30, 2003.
